

the **theatron**TM stellar

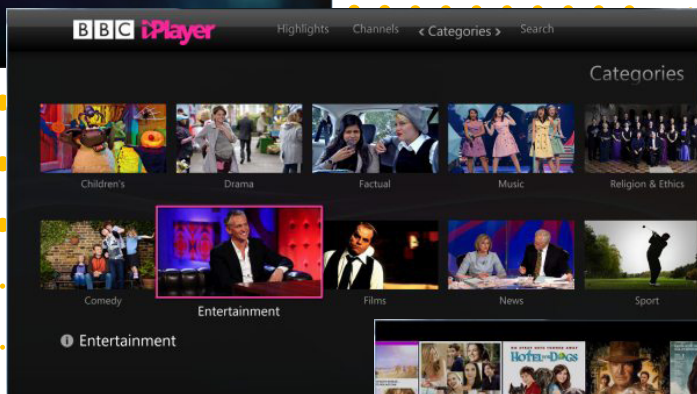

looks like the Orbit... but with two-way control & four separate audio outputs!

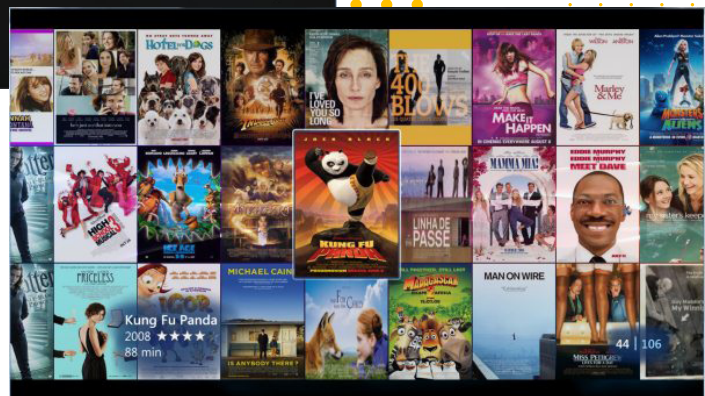

- Store & play...
- ✿ BluRays & DVDs
 - ✿ Music
 - ✿ Freeview TV
 - ✿ Photos
 - ✿ TV-on-demand
 - ✿ Videos

With the **theatron**TM Stellar's intuitive interface, all the family can quickly & easily enjoy all your favourite media...

The **theatron**TM Stellar gives you instant access to on-demand content from the BBC iPlayer, MSN video & Sky Player

The **theatron**TM Stellar stores over 500 DVDs, or 160 BluRays as standard! Simply place your disks in the drive, and with a couple of clicks all your favourite films can be stored for instant access... and don't worry, you'll still be able to see & hear them in full HD, with 7.1 sound & access all the extras!

The **theatron**TM Stellar enables you to play four different music tracks throughout the house, while watching photos/films etc, on the main screen. If you want to watch a different film in another room, simply add an extra **theatron**TM View...

Control & Multiroom Audio

The Stellar has a two-way control interface which enables it to communicate with a range of control systems, and for these systems to control the four audio outputs. These include:

Additionally, you can control the Stellar via a two-way web interface (including control of the audio outputs), or via IR remote (control of the main interface only).
