- ✿ Freeview TV
- ✿ Photos
- ✿ TV-on-demand
- ✿ Videos

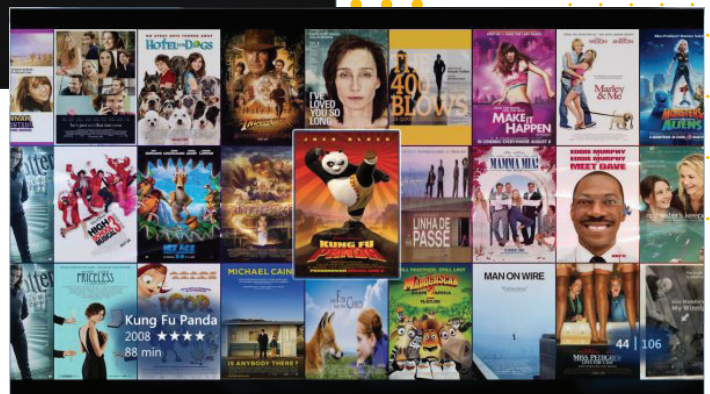

With the **theatron**[™] ViewHD's intuitive interface, all the family can quickly & easily enjoy all your favourite media...

The **theatron**[™] ViewHD gives you instant access to on-demand content from the BBC iPlayer, MSN video & Sky Player

The **theatron**[™] ViewHD accesses films and other media stored on a **theatron**[™] Server, Stellar or Orbit (main units). Once you have stored your content on your main unit, it can be instantly accessed on your View... and don't worry, you'll still be able to see & hear everything in full HD!

If you want to play a BluRay or DVD directly through your **theatron**[™] View, get the ViewPlus. If you want to watch a different stored film in another room, simply add an extra **theatron**[™] View...

Control

The View is controlled via infrared, or with one-way IP commands (i.e. Play, Stop, etc.)

If you wish to use a **theatron**[™] with a control system, consider using the **theatron**[™] ViewUltimate, which has a two-way communication (display album art on touch panels, etc) for most control solutions.

Audio & Video

Video output: HDMI 1.3; VGA

Optional video: Composite; Component

Audio output: HDMI 1.3; stereo via audio jacks (3.5mm)

Storage

no media storage

The View accesses content stored on a **theatron**[™] Server, Stellar or Orbit.
